

## Vocabulary Revision

By now almost all the the words on the IGCSE syllabus will be in your notebook. Go through you notebook alongside the syllabus and compare. Any words not in your notebook should now be added. Test yourself, ideally get someone to help you, until you are confident you can remember all the words in the syllabus. One good way to do this is to make a special list of words you find hard to remember and concentrate on those. If you enjoy using quizlet there are a number of sets of IGCSE vocabulary flashcards that students have put up. Don't rely on these as they may not be complete or even accurate but if you check them first for any problems they could be useful.

The next Grammar lesson will be devoted to a vocabulary test.
